ISBN-10: 0691074534

ISBN-13: 978-0691074535

Amazon Preis EUR 50,99

**COMMUNITY
ANALYSIS AND
FEEDBACK**

**BENEFITS AND
OUTCOMES**

What is absolutely essential in the scientific methodology is not that empirical observations are made, but that these observations are objective as opposed to subjective – hence the term objective science. Objective empirical observations in the philosophy of science means that the same observations can be made by any person having the abilities to do so.

Selective attention test

Wissenschaftliche Methoden

- Korrelative Analysen
=> Wahrscheinlichkeits-Aussagen
- Vergleichende Methodik
=> historisch-narrative Aussagen
- Experimente
=> kausale Aussagen (nomologisch-deduktives Vorgehen)

Objektive Wissenschaft
=>reproduzierbare Ergebnisse
